## REASONS FOR ALLOWANCE

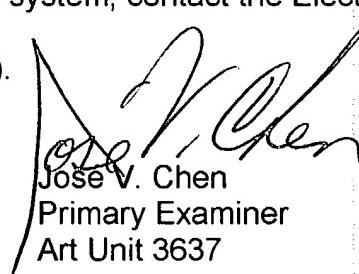

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a pallet including first and second decks and a plurality of opposed mating areas on the decks, each of the mating areas including alternating projections and recesses, the projections have a shape that is complementary to the shape of the recesses, the projections of the first deck are arranged to be received by the recesses of the second deck and the projections of the second deck are arranged to be received by the recesses of the first deck, each mating area further including at least one latch member extending therefrom, the latch members of one deck are arranged to engage the projections of the other deck. The prior art of record only teaches projections and recesses that are complementary to each other, but does not teach complementary in shape. Further, the prior art of record does not teach or suggest a pallet, including a lower deck having a plurality of lower deck mating areas, an upper deck spaced from and overlying the lower deck, the upper deck having a plurality of upper deck mating areas complementary to the lower deck mating areas, each of the lower deck and upper deck mating areas includes an alternating arrangement of projections and recesses, the projections of the lower deck are arranged to be securely received by the recesses of the upper deck and the projections of the upper deck are arranged to be securely received by the recesses of the lower deck, resulting in a non-planar parting line between the upper and lower decks on external surfaces of the mating areas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
